Approved H-2B Cap-Subject
Beneficiaries by Job Code, Fiscal
Year 2017

Source: USCIS, data as of October 31, 2017. Notes: Per USCIS best practices, units of less than 10 beneficiaries are masked so as to limit the possibility of the de-anonymization of data. "D" represents data withheld to protect privacy. The letter H replaces the value in the total column where one could deduce the value of D.

Approved H-2B Cap-Subject Beneficiaries by Petitioner's State, Fiscal Year 2017

Source: USCIS, data as of October 31, 2017. Notes: The state information represents the state where the petitioning employer listed their office and may not reflect the state where the work was actually performed. Per USCIS best practices, units of less than 10 beneficiaries are masked so as to limit the possibility of the de-anonymization of data. "D" represents data withheld to protect privacy. The letter H replaces the value in the total column where one could deduce the value of D. A dash represents zero. Employers without tax identification numbers in our system were excluded.

Approved H-2B Cap-Subject Beneficiaries by Employer Fiscal Year 2017

Source: USCIS, data as of October 31, 2017. Per USCIS best practices, units of less than 10 beneficiaries are masked so as to limit the possibility of the de-anonymization of data. "D" represents data withheld to protect privacy. The letter H replaces the value in the total column where one could deduce the value of D. A dash represents zero. Employers without tax identification numbers in our system were excluded. While some company names may appear multiple times, USCIS enters data as listed on the petition and does not combine companies, even where the names are the same, because in all cases the employer tax identification numbers are different on the petition.
